

RSMSSB Lab Assistant Syllabus 2021

The questions in the exam will broadly cover two sections i.e. General Knowledge and PCB Subjects (Physics, Chemistry, and Biology). The General Knowledge section will mainly consist of the following aspects with respect to the Rajasthan state :

- History
- Arts
- Culture
- Literature
- Heritage
- Geography

The questions from the PCB subjects will have a difficulty level as that of the intermediate/12th class.

RSMSSB Lab Assistant Exam Pattern 2021

The written exam will consist of two sections or parts namely General Knowledge and PCB Subjects (Physics, Chemistry, and Biology). The combined duration of this examination will be 3 hours and the maximum number of marks that can be scored are 300. The candidates must focus more on PCB subjects since the 2/3rd weightage of the total marks will be given to this section. The minimum qualifying marks will be 40% for this exam.

Parts/Sr. No.	Sections/Subjects	Max Marks	Duration
A	General Knowledge	100	3 Hours
B	Biology, Chemistry, Physics	200	
Total		300
